

A Family Pheasant Hunt at Quail Point

By Rocky Ferraro

I was going on a family vacation this year as soon as school let out and our dog sitters were coming with us. I checked around for a dog sitter and all that kept coming to mind was “I don’t want to buy another dog; I just want someone to watch him!” I remembered that Olive Hill Kennels had dog boarding for both hunting dogs and family pets. Hmm, I said maybe I could board Max up there and get a hunt out of it too? They offer training, boarding, exercise and a variety of options.

My wife decided that she wanted to give this place a try since it was reasonably priced. I was pleasantly surprised when I found out that the whole family would be going to look the place over; Quail Point Hunting Reserve was open as well. For those of you who don’t know Quail point Hunting reserve is only a few miles away. So, I planned to hunt Quail Point with my family and then drive over to Olive Hill Kennels and check out where Max was going on vacation.

I had a great pheasant hunt that day with my kids and wife in tow. I rented a Britney and had her jump into the family SUV while we went to our reserved field. The Britney did well and soon we had our brace of pheasant. The girls Patt, Elizabeth and Julia got to see what pheasant hunting is like and what a hero their dad is ☺ Mom was happy with Olive Hills and the girls all got to pet and cuddle with some little yellow lab pups. All in all it was a very memorable time for all of us and will not soon be forgotten.
